

Experienced project manager / scrum master

Job description

We are looking for a dynamic and well-organized project manager with an excellent knowledge of English and proven experience of Agile as a scrum master to enforce the projects business unit of our company.

As a scrum master of Agile projects, you will facilitate the development of multiple projects and work closely together with and as part of several Agile teams to deliver high quality and state of the art development and software solutions to our customers. You will coach and facilitate the team, support the product owner, make sure that scrum processes are adhered to and the benefits of the Agile process are maximized.

As a Project Manager of Waterfall projects, you will lead the software development, including safeguarding project goals, requirements, tasks and resource planning, identify improvements within project scope, follow-up deadlines and requirements and work closely with the delivery manager and the project leads to get them implemented.

Profile of the ideal candidate

The ideal candidate would have:

- 6 to 10 years of IT experience in which minimum 3 years of full time responsible experience with demonstrated project management discipline
- proven experience with Agile software development
- Agile certified as a scrum master
- formal training/ certification on project management
- a solid understanding about various technologies and business systems solutions
- excellent analytical skills, organizational and planning skills
- experience with working with international customers
- cultivate the people skills needed to develop trust and communication
- no problem with working independently
- excellent communication and diplomatic skills
- an excellent spoken and written knowledge of English
- ability to take a professional, logical and proactive approach to solving work problems and process improvement
- ready to work in a growing, internationally oriented company
- no 9 to 5 mentality and a go-getter attitude

The ideal candidate would be:

- committed to tasks and deadlines
- breathing agile air
- hardworking and punctual
- well-organized and a planner
- an initiative taker and self-motivated
- a quick learner and proactive
- working independently
- result driven
- a team player

The compensation package

We offer you:

- competitive pay package
- dynamic and challenging job in an open work environment
- opportunity to grow with the company
- exposure to work with international customers
- front seat ride in the roller coaster of cutting edge technologies
