

Experienced Java developer

Job description

We are seeking a highly-skilled, experienced Java developer to join our growing software development team. In this role, you will help develop and design technology solutions that are scalable, relevant, and critical to our company's success. You will focus on Java/JavaEE development throughout all phases of the development lifecycle and must have a solid skill set, a desire to continue to grow as a developer, and a team-player mentality.

Profile of the ideal candidate

The ideal candidate would have:

- a bachelor or master degree in Computer Science or any other discipline with minimum 2+ years of experience in IT field
- good problem solving skills
- solid working knowledge of Java, J2EE, Spring, Servlet, JSP, Hibernate, Maven and Apache tomcat
- knowledge on JDBC, SQL
- significant experience working with SQL and HTML
- knowledge on any of the scripting languages preferably Pascal Scripting
- no 9 to 5 mentality
- ready to work in a SME environment
- decent communication skills

The ideal candidate would be:

- committed to tasks and deadlines
- hardworking
- initiative taking
- self motivated
- quick learner
- pro-active
- result-driven

The compensation package

We offer you:

- competitive pay package
- dynamic and challenging job in an open work environment
- fast-track training on the job with mentoring by experienced engineers
- opportunity to grow with the company
- exposure to work with international customers
- front seat ride in the roller coaster of cutting edge technologies

Job location

Bangalore, (Karnataka, India)
